

## **Belleli Energy CPE has Achieved Nuclear Stamp**

Belleli Energy CPE has achieved “N” and “NPT” Certificates of Authorization (N-3260 and N-3261) and the “NS” Certificate of Accreditation (N-3262) from the American Society of Mechanical Engineers (ASME). These certifications authorize Belleli Energy CPE to use ASME Code Symbol Stamps for construction of Nuclear Pressure Vessels.

ASME standards are recognized worldwide and represent a set of technical definitions and guidelines, “how to” instructions for designers, manufacturers and users. ASME Standards promote safety, reliability, productivity and efficiency in almost every industry that relies on engineering components or equipment.
